Summary

Born and raised in Bangkok, Thailand, I am an AI Engineer and Technical Lead with experience building and deploying production-grade AI systems for enterprise and SME clients. Led end-to-end development of LLM-powered platforms, cloud infrastructure, and CI/CD pipelines across Azure and GCP in a startup environment. Strong background in MLOps, full-stack systems, and translating broad business needs into shipped products.

Experience

Technical Lead (Cloud, Databases, DevOps, Deployment, ML/AI)

AI Brain Lab (startup) | Oct. 2023 - May 2026

- Worked in an agile, fast-paced startup developing novel AI-powered applications for clients in Thailand and surrounding regions. Responsible for building scalable backends (Django, FastAPI), complete with databases (Mongo, Postgres), data-warehousing, LLM flow development, deployment as well as production-ready integration, deployment and CI/CD procedures of applications using GitHub, Microsoft Azure, and GCP.
- Led projects including an AI-first HRMS and an automated ESG reporting enterprise software for SMEs. This includes translating shifting client/ investor requirements into manageable tasks, running Scrum meetings, setting deadlines and delegating tasks to colleagues and interns, as well as pitching and demoing our work to stakeholders.
- Sole Cloud Administrator for Azure and GCP, designing secure IAM, managing budgets, and maintaining dozens of production services while supporting rapid iteration and client deployments.

Master's Research - MEng Data Science and Artificial Intelligence

Asian Institute of Technology | 2023 - 2024

- Designed and implemented an AI-powered CRM system for the automotive insurance sector, integrating intent detection, conversational AI, and automated quotation generation. Research work available upon request.

Hackathon Participant

BOTNOI OpenAI Hackfest | Apr. 2023 - July. 2023

- Worked with OpenAI, LangChain, and Microsoft Azure services to develop an AI-powered English language mastery platform for IELTS exam takers.
- Achieved second place in the education domain.

Education

Asian Institute of Technology, Thailand

MEng Data Science and Artificial Intelligence, 2021-2024

- Cumulative GPA of 3.67

University of Nottingham, United Kingdom and Malaysia Campus

BEng (Hons.) Chemical Engineering, 2018-2021

- 1st Class Achievement and Highest Achiever in the graduating class of 2021
- 2 years completed in Nottingham, United Kingdom with the final year in Semenyih, Malaysia

Skills

AI & ML

- LLMs, RAG systems, LangChain, LangGraph, vision, speech, and language models (EN + TH)
- MLFlow, LangSmith, Azure ML Workspace

Backend & Platforms

- Python (Django, FastAPI, Flask), Ruby (Rails) PostgreSQL, MongoDB
- Task management with Celery and Azure/GCP native message queues

Cloud & MLOps

- Azure, GCP, CI/CD, MLflow, Azure ML Workspace, Docker, GitHub Actions

Languages

- English (Fluent), Hindi (Fluent), Thai (Conversational)

Mentorship

- Responsible for several part-time and contract workers as well as interns from educational institutions

Certifications

- Achieved a score of 8.0/9.0 in IELTS, 116/120 in ETS TOEFL English Assessments
- Microsoft-certified Excel Expert
- Microsoft-certified Azure Fundamentals (AZ-900)
- Google Data Analytics Professional Certificate
